

BLUE GRANULAR SPRAY PATTERN INDICATOR DYE AND LAKE COLORANT

Indicator Blue Granules. Professional strength, highly concentrated and cost effective:

- **Aids identification of blocked nozzles and helps to eliminate the risk of dangerous overlaps as well as identifying missed areas of spray solutions**
- **Reduce light into ponds, lakes and water features**
- **Applied product is safe for the environment, people, pond and aquatic wildlife.**

CAUTION - KEEP OUT OF REACH OF CHILDREN AND PETS.

SUGGESTED APPLICATION RATES

Greens, tees, fairways and outfields:

Dormant and light turf begin with 15 - 25 gms per 100L tank mix. Darker and taller grass may require 40 gms.

Lake Colourant:

Average depth of lake, 1 meter or below – 10gms per 100 cubic meters of water.

Average depth of lake, 1 meters or above – 8gms per 100 cubic meters of water.

Follow by monthly application to maintain color intensity.

Retain mix records for future reference.

STORAGE

Replace cap after each use. Store at ambient temperature. Do not freeze. Triple rinse bottle and offer for recycling or disposal according to local regulations.

SAFETY

Always wear eye protection. Use disposable gloves to avoid possible contact with skin, due to temporary staining. Indicator Blue Granules are non-toxic. In case of skin contact wash, with soap and water. In case of eye contact, flush with plenty of clean water. Seek medical advice if irritation persists. If swallowed and conscious, flush mouth with water, and seek medical advice.
